2023 Highlights

- 8 PAA KC-135 Stratotanker Aircraft
- During Northern Agility 23-2, hosted seven Air Refueling Wings executing line of effort training to include Hot Pit Refueling and Tanker Generation Team employment
- Expanded capabilities at Selfridge ANGB adding west ramp and site certifying the KC- 46 for Hot Pit Refueling with a team from Pease ANGB
- Leading edge in Tanker Special Fueling Operations: developed DRAFT CONOPS that drive new TTPs from an AFSOC perspective. Created new checklist for Wet Wing Defueling and improved Hot Refueling checklist
- Conducted WWD at Hurlburt Field with consultation from AFSOC Subject Matter Experts; AFSOC guidance led to groundbreaking improvements in processes, procedures, and development of Tanker SFO CONOPS
- WWD Operations and Maintenance task approved for trial in coordination with engineering at Tinker AFB with input from AMC A4 WSM and A3VD
- Deployed 100 personnel and several aircraft to support CENTCOM operations
